Dear Chairman Stojkovic:

Upon receiving your letter dated April 19, 2005, I placed this correspondence on my City of Cudahy Common Council Agenda for our next regular scheduled meeting, which was conducted May 3, 2005. During that meeting, I discussed your request for assistance with the members of my Council.

The City of Cudahy, like most municipalities, is working under tight budgets with limited resources, and very little available time of staff to take on additional projects. While your request was for various types of resources, at this time, we do not have available full resources that could devote large amounts of time to this situation.

However, one of our Alderpersons, Joe Mikolajczak, the First District Alderman, did express an interest in being a liaison between the Committee and the City of Cudahy. Alderman Mikolajczak, would attend any meetings, and attempt to work with the appropriate City of Cudahy Personnel, in any information that would be needed by the Committee.

I would like to have you, or a representative of the Committee, contact him directly at 414-483-1255, so you can discuss this. Upon your discussions, if you have any further questions or concerns, you could feel free to contact me. While this may not be exactly what the Committee would be looking for, we hope that any help that we may provide can be helpful to the Committee, in meeting their goals and objectives.

Sincerely,

John R. Hohenfeldt  
Mayor / Cudahy

CC: Alderman Joe Mikolajczak
